| c | Can you explain how the process works (get walkthrough with explanation of main process flows, safety systems and controls plus a general description of their duties)? Do you feel that the training was adequate in this area? Suggested improvements? | |
| d | Do you issue Hot Work, Confined Space, etc, permits to perform work in your process area? What is your role in implementing [select a safe work practice] (look for an understanding of the permit system, how they perform their task and the responsibilities of other parties)? | |
| e | Have you ever received refresher training? Were you involved in determining the frequency and scope of refresher training? Is refresher training adequate? | |
| f | Do you feel that the tests adequately evaluated your knowledge of the training (were the tests too easy, could they be passed without adequate knowledge of the process and procedures)? Is performance of your duties contingent upon passing the tests? | |
